Introduction to this Guide

This user guide provides information for individuals accessing the Florida Standards Assessments (FSA) practice tests. This introduction describes the contents of this user guide and includes a key for identifying icons and elements used.

Guide Sections

Each section and appendix begins on a new page, which allows for easy printing.

1. [Signing In to the Practice Test Site](#) provides information on how to log in and select a practice test.
2. [Overview of Practice Test Features](#) includes information about a sample test layout, global and context menus, and the test tools that are available.
3. [Item Types on Tests](#) gives an overview of the item types that students may see on the practice tests and general guidelines on how to respond to items.
4. [Keyboard Navigation](#) provides keyboard commands for general test navigation as well as for specific features.

Signing In to the Practice Test Site

Students must use a supported web browser or the secure browser to access the Practice Test site. The supported web browsers for the practice tests are listed in the *System Requirements for Online Testing* document found on the FSA Portal (www.FSAssessments.org).

Using the Secure Browser

1. Launch the FSA Secure Browser icon on your desktop or mobile device.
2. Select **Go to the Practice Test Site** to access the Student Practice Test site.
3. Continue to step 3 below.

Using a Web-Browser

1. Open a supported web browser on your computer or tablet.
2. Navigate to the FSA portal (www.FSAssessments.org).
 - a. In the right-hand panel, click the **Practice Tests** card. The **Practice Tests** page appears.
 - b. Click **Take the Computer-Based Practice Tests** card. The **Student Practice Test** login page appears.
3. You will sign in as a guest user. Click **Sign In**.

Florida Standards Assessments Practice Tests

The purpose of the practice tests is to enable users to become familiar with the functionality and item types that students will encounter in AIR's Test Delivery System; the tests are not intended to guide classroom instruction. For more information about taking the practice tests, please access the *Practice Tests Guide* at www.FSAssessments.org.

Login information is not required for the Practice Tests. Click Sign In to access the Practice Test as a Guest.

4. The ***Is This You?*** page appears. From the *Student Grade Level* drop-down list, select a grade.

Overview of the Test Site

Sample Test Page

The screenshot shows a sample test page with a navigation bar at the top. On the left, there are buttons for 'Back', 'Next', 'Pause', and 'End Test'. The 'End Test' button is highlighted with a red box and labeled 'End Test button'. On the right, there is a 'Help (?) button' and a 'Test Tools' section. The 'Test Tools' section contains icons for 'New', 'Line Reader', 'Zoom Out', and 'Zoom In'. The 'Help (?) button' is also highlighted with a red box and labeled 'Help (?) button'.

Next Step:
To begin your test, choose **Begin Test Now**. If your Test Administrator tells you to log out, choose **Return to Login**.

Overview of Practice Test Features

This section provides an overview of what a test page looks like. Information about available test tools and how to access them is also provided.

Test Layout

This sample image for an ELA Reading test shows the primary features and available tools, though the tools will differ between subjects and grade levels.

Each test has three major sections:

- **Banner** (contains global tools and navigation buttons, as well as the Help button)
- **Stimulus/Passage** (displays test content/stimuli)
- **Item** (contains the question, response area/options, and context menu)

Note: Some tools are available only by accessing a context menu for that stimulus/item. For more information, see the next section.

Global and Context Menus

The global and context menus allow students to access on-screen tools. These tools can be accessed using a mouse or keyboard shortcuts. For information about keyboard shortcuts, refer to [Keyboard Navigation](#).

About the Global Menu

The global menu (located in the banner) contains all the visible tools displayed at the top of the student's test screen. Most universal tools, as well as the Help button, are in the global menu.

Sample Global Menu

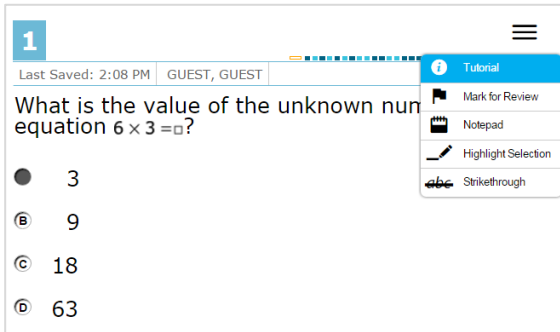

To open a test tool in the global menu, select the button for the tool.

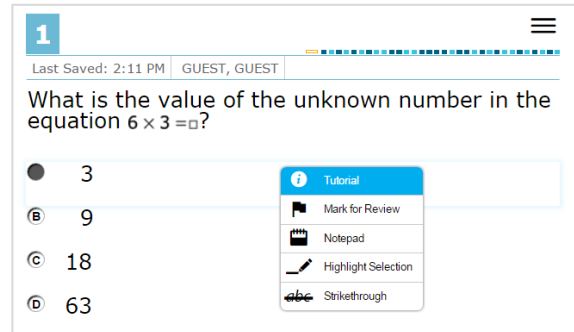

About the Context Menus

Each test question may include several elements, such as the question number and answer options. The context menu for each element (e.g., passage, stimulus, answer options) only contains tools that are available for that element.

Context Menu for Questions

Context Menu for Answer Options

Opening a Context Menu for Passages and Questions

You can access context menus by clicking the context menu [☰] within an element (e.g., passage, stimulus) or by right-clicking within an element (e.g., passage, stimulus, answer options). The context menu will display different tools based on where and how you access it.

Using the context menu button to access context menu tools:

1. Click the context menu [☰] in the upper-right corner of an element (e.g., passage, stimulus).
2. Select a tool from the context menu.

Right-clicking to access context menu tools:

1. To access the context menu by right-clicking, do one of the following:
 - If you are using a **two-button mouse**, right-click an answer option.
 - If you are using a **single-button mouse**, click an answer option while pressing **Ctrl**.
 - If you are using a **Chromebook**, click an answer option while pressing **Alt**.
 - If you are using a **tablet**, tap the answer option and then tap the context menu button (this selects the answer option until you select a different option).
2. Select a tool from the context menu.

General Test Tools

The following test tools are available:

- **Global Tools:** Global tools appear in the global menu at the top of the page.

- **Stimulus/Question Tools:** These tools are specific to stimuli and questions and are accessed by opening the context menu [] for a stimulus, question, or answer option area.

Table 2. Global Tools

Global Tools	Description
Help (?) button 	The Help button at the top right opens the on-screen Help Guide window.
Zoom buttons 	Use the Zoom In and Zoom Out buttons to increase and decrease the size of text and graphics within a single test page. Four zoom levels are available.
Line Reader 	Use the Line Reader button to highlight a single line of text at a time in passages and questions. <i>Note: The Line Reader tool cannot be used if the Highlighter tool is being used.</i>
Notes button 	Click the Notes button to open an on-screen notepad. You can enter notes for yourself and save them. These notes are global and remain in the pop-up window throughout the test. <i>Note: This tool is available for ELA Reading and ELA Writing tests.</i>
Calculator button 	Click the Calculator button to open the on-screen calculator. <i>Note: The calculator is available for Grades 7-8 Mathematics and End-of-Course (EOC) Mathematics tests.</i>
Formula 	Click the Formula button to view applicable reference sheets for assessments for which they are provided. <i>Note: The Formula tool is available for Mathematics and EOC tests only.</i>
Questions drop-down list	This feature enables you to quickly return to a specific test page. Questions that were marked for review display "(marked)."
System Settings	The wheel next to the Help button allows you to adjust volume during the test. <i>Note: This tool is available for ELA Reading and text-to-speech accommodations only.</i>
Save (Optional) 	This button allows you to manually save technology-enhanced questions. This is an optional feature. If you do not click this button, your answers are still saved automatically.
Pause 	This button allows you to pause and log out of the test.

You can also expand the right side of the page.</p> <p>Click the left arrow of the icon [] to expand the right side of the page to view the test item and click the right arrow to collapse it again. Click the right arrow to expand the passage and click the left arrow to collapse it again.</p>

Stimulus/Question Tools	Description
Strikethrough	<p>For multiple-choice or multiselect questions, you can “eliminate” an option and focus on the options you think may be correct.</p> <ul style="list-style-type: none"> • To strikethrough an answer option, right-click on the option and select Strikethrough. A line appears through the text or image. • To remove the strikethrough from an answer option, right-click on the option and select Undo Strikethrough.
Select Response Version	<p>For open response questions, you can view and restore responses previously entered. To access the Select Response Version tool, right-click in the text box and choose Select Response Version from the context menu.</p>
Tutorial	<p>Each question has a tutorial video that you can watch to learn more about responding to that type of question. To view the tutorial video, select Tutorial from the context menu.</p>
American Sign Language (ASL)	<p>For students with this accommodation assigned, videos are displayed that translate FSA ELA Reading audio passages into American Sign Language (ASL). From the context menu, select American Sign Language.</p>
Closed Captioning	<p>FSA ELA Reading audio passages automatically display closed captions for students who have chosen this setting or who are taking a practice test in the Secure Browser with the accommodation assigned.</p>

Item Types on Tests

This section contains sample item types that may appear on the practice tests. The following item types may appear: editing task, grid, hot text, multiple-choice, multiselect, open response, and equation response.

Note about technology-enhanced item types:

Students can manually save their answer before moving to the next item on the test. A **Save** button appears at the top of the screen for these items. If students do not click **Save**, the system automatically saves the responses when they move on to the next item or pause the test.

Editing Task Items

To enter responses for editing task items, click the highlighted word or phrase. (Typically, the highlighted word or phrase has a light green background.)

- Some editing task items require you to enter the replacement word or phrase.

- Other editing task items require you to select the replacement word or phrase from a menu.

Grid Items with Action Buttons

Grid items require using point, line, or arrow buttons to create a response.

- To add a point, click the **Add Point** button and then click the location in the grid where the point should appear.
- To add a line or arrow, click the **Connect Line** or **Add Arrow** button and then click on the desired beginning and end points of the line in the grid.
- To delete a point, line, or arrow, click the **Delete** button and then click the object you want to remove. (Clicking a point also removes connected lines.)

The screenshot shows a grid with three red points connected by lines. At the top, there are three buttons: 'Delete', 'Add Point', and 'Connect Line'. A red arrow points to the 'Connect Line' button with the text 'Action buttons.' Another red arrow points to the graph with the text 'Points and lines added to graph.' Below the grid, a red arrow points to the 'Delete' button with the text 'Click the arrow button if you do not want to add an extra point or line by accident.' A scale bar at the bottom right indicates '1 ft'.

Note: The "active" action button is white.

Hot Text Items

Hot Text items require you to either click on a response option or drag a response option to another location.

The screenshot shows a passage titled 'Passage 1: Discourse on Woman (1849) by Lucretia Mott'. To the right of the passage is a table with two columns: 'Sentence' and 'Effect'. The 'Sentence' column contains three paragraphs of text. The 'Effect' column contains three dashed boxes. Below the table are four response options: 'shows that support for change may be growing', 'provides evidence for the need for change', 'establishes her primary claim', and 'presents an example of progress'. Red arrows point from the text 'Drag your response to each answer box.' to the dashed boxes, and from 'Available response options.' to the response options.

Multiple-Choice Items

Multiple-choice items require you to select a single answer option.

Note: You may click anywhere on the answer option or click in the circle that contains A, B, C, or D. The selected answer circle becomes shaded.

The screenshot shows a multiple-choice question. The question text is 'The product of the following expression is 34,572.' Below the text is a multiplication problem:
$$\begin{array}{r} 402 \\ \times \quad 6 \\ \hline \end{array}$$
 The question asks 'What is the missing digit?' Below the question are four answer options: (A) 0, (B) 1, (C) 7, and (D) 8. A red arrow points to the answer option (B) 1 with the text 'Click on an answer option or row to select it as your answer.'

Multiselect Items

Multiselect items allow you to select more than one answer option. These are different from multiple-choice items, which allow you to select only one response.

Note: Some items may ask you to select a specific number of responses.

Special Symbol	Description
Fraction 	This symbol allows you to enter a fraction into the equation editor. Select the numerator, then navigate to the denominator, and then select the value for that field.
Exponent 	This symbol allows you to enter an exponent into the equation editor. After you enter the base number, select the exponent button, and then enter the exponent number.
Subscript 	This symbol allows you to enter a subscript into the equation editor. After you enter the base number, select the subscript button, and then enter the subscript number.
Parentheses 	This symbol allows you to enter parentheses . Once you select the symbol, the parentheses will appear in the equation editor. Then select the numbers and symbols that should appear between the open and close parentheses.
Absolute Value 	This symbol allows you to enter an absolute value . Once you select the symbol, the lines will appear in the equation editor. Then select the numbers and symbols that should appear between the lines.

<p>Square Root</p> 	<p>This symbol allows you to enter a square root value. Once you select the symbol, the radical sign will appear in the equation editor. Enter the number that should appear under the radical sign.</p>
<p>nth Root</p> 	<p>This symbol allows you to enter an nth root value. Once you select the symbol, the radical sign will appear in the equation editor. Enter the number that should appear under the radical sign. Use the straight left arrow to navigate to the nth field and enter the number that should appear there.</p>

Keyboard Navigation

Any student using a desktop, laptop, or Chromebook can use keyboard commands to navigate between test elements, features, and tools. Keyboard commands are not available for tablets.

Note: Keyboard commands require using the primary keyboard. If your keyboard contains a numeric keypad (often on the right side), do not use the keys in that area.

This section can be printed out for students to use as a reference during the practice tests (but must NOT be provided during operational tests).

Keyboard Commands for Test Tools

Students can use these commands to navigate between test elements, features, and tools.

Opening the Global Menu

To access the global menu with keyboard commands:

1. Press the **Ctrl + G** keys to view the global menu. The menu appears on the screen.
2. Use the **Up** or **Down** arrow keys on your keyboard to move between options in the menu. Each option is highlighted as you arrow up or down.
3. Press the **Enter** key to select the highlighted menu option.
4. Press the **Esc** key to close the global menu.

Opening the Context Menus

To access context menus with keyboard commands:

Navigating to an element:

Press the **Tab** key to navigate between questions, the answer options, and the reading passage.

Opening the context menu for an element:

1. Press the **Ctrl + M** keys on the keyboard. The context menu for that element appears.
2. Use the **Up** or **Down** arrow keys on your keyboard to move between options in the menu. Each option becomes highlighted as you arrow up or down.
3. Press the **Enter** key to select the highlighted menu option.
4. Press the **Esc** key to close the context menu.

Keyboard Commands for Grid Questions

Grid questions may have up to three main sections:

Answer Space: The grid area where students enter the response.

Button Row: Action buttons may appear above the answer space. Buttons may include **Delete**, **Add Point**, **Add Arrow**, **Add Line**, and **Connect Line**.

Object Bank: A panel containing objects you can move to the answer space.

The diagram illustrates the layout of a grid question interface. It is divided into three main sections:

- Object Bank:** A vertical list of numbers (0.1, 0.2, 0.3, 0.4, 0.5, 0.9, 1.6, 2.5, 3.2, 4.1) on the left side.
- Button Row:** A horizontal row of buttons above the answer space, including a "Delete" button.
- Answer Space:** The main area for entering responses, containing:
 - Part A:** A section titled "Each full row = 1.0 meter" with three rows of ten empty boxes for digits.
 - Part B:** A section with two sentences: "He will have meters of wire left over." and "He needs more meters of wire." with empty boxes for numerical answers.

To move between the main sections:

- To move clockwise, press **Tab**.
- To move counter-clockwise, press **Shift + Tab**.

To add an object to the answer space:

1. With the object bank active, use the arrow keys to move between objects. The active object has a blue background.
2. To add the active object to the answer space, press **Space**.

To use the action buttons:

1. With the button row active, use the left and right arrow keys to move between the buttons. The active button is white.
2. To select a button, press **Enter**.
3. Press **Space** to apply the point, arrow, or line to the answer space.

To move objects and graph elements in the answer space:

1. With the answer space active, press **Enter** to move between the objects. The active object displays a blue border.
2. Press **Space**.
3. Press an arrow key to move the object. To move the object in smaller increments, hold **Shift** while pressing an arrow key.
